DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The G. C. Twilley House is located on the south side of Water Street, one-half block west of the intersection of Main and Water Streets in Sharptown, Maryland. It is a two and a half story frame house of the late nineteenth century with a gable roofed main block oriented west. The three-bay west elevation has a one-story shed roofed porch with turned columns and balustrade. The gable end facing Water Street is a polygonal bay with patterned shingles in the gable and a perforated sunburst gable ornament. A two and half story extension intersects the main block on the east elevation, and a one-story addition of a later date adjoins the south. Interior end chimneys project through the roof of the main section which also has a widow's walk of possibly modern vintage. A third small chimney breaks through the roof at the intersection of the main and east gables. The exterior is covered in weatherboards and the original sash has been replaced by modern storm windows.

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

The G. C. Twilley House exemplifies the vernacular Queen Anne style of the larger houses of Sharptown's most prosperous period, the late nineteenth century. Its fine woodwork and imaginative decoration are a tribute to the town's skilled carpenters.
